LinkedIn | GitHub | Solapur, Maharashtra

OBJECTIVE

Final-year Electronics & Telecommunication Engineering student skilled in Java, OOP and MySQL, with hands-on experience building projects such as an ATM Management System and an AI-based recruitment platform. Seeking an entry-level Software Engineer / Java Developer role where I can apply my skills and keep learning.

EDUCATION

N K Orchid College of Engineering & Technology, Solapur *2027*
B.Tech — Electronics & Telecommunication Engineering | CGPA: 7.0

Hindustani Convent Church Highschool & Jr College *2023*
Higher Secondary Certificate (HSC)

Sevasadan Junior College, Solapur *2021*
Secondary School Certificate (SSC)

TECHNICAL SKILLS

- **Programming:** Java, C, C++, SQL
- **Core Concepts:** Object-Oriented Programming (OOP), Data Structures and Algorithms (DSA)
- **Database:** MySQL, MongoDB
- **Tools:** Eclipse, VS Code, GitHub

EXPERIENCE

Java Development Intern — ShadowFox (Virtual) *Feb 2026*
- Completed a one-month virtual internship in Java development.
- Delivered internship projects including an Enhanced Calculator and a Contact Management System.

RPG Foundation Employability Skill Development Program — Zensar *Jan 2026*
- Completed structured training in Java and SQL.
- Developed an ATM Management System as a practical project.

PROJECTS

AI-Based Student Recruitment & Assessment Platform *Aug 2026 – Present*
- **Tech Stack:** Java, MongoDB
- Developing a platform that analyses resumes for relevant skills and generates performance reports for recruiters.
- Includes technical and aptitude assessments with detection of suspicious test behaviour.

ATM Management System — Java *Jan 2026*
- **Tech Stack:** Java, MySQL
- Built a console-based Java application supporting login/PIN validation, balance enquiry, deposit, withdrawal and transaction handling.
- Applied object-oriented programming principles to structure account operations.

Contact Management System — Java *Feb 2026*
- **Tech Stack:** Java, MySQL
- Developed a Java application to store, search, update and delete contact records.
- Implemented structured input handling using object-oriented design.

CERTIFICATIONS

- Introduction to Cyber Security — Infosys
- International Symposium on Robotics and AI — Attendee
- Orchathon 2025 — Unstop (Participant)
- Hack-AI-thon 2025–26 Edition — Google Developer Group (GDG) On Campus, NKOCET (Participant)

CAREER FOCUS

- Software Engineer (Entry-Level)
- Java / Backend Developer
